

Mr. Camplin Goes to Washington! Speaks at Dunesland's April 25 Noon Luncheon at Illinois Beach State Park Resort

Worried about asbestos on our beaches? Find out the real truth and dangers from Dunesland's asbestos health and safety expert, Jeffery C. Camplin, who testified on March 12 before the House Science & Technology Committee's Investigations and Oversight subcommittee about ATSDR/CDC's scientific fraud in the way tests have been conducted to determine the level of asbestos contamination on the Illinois shoreline. Jeff has fought for proper scientific testing for the Lake Michigan shoreline asbestos problem since 2003.
